

LADTECH INC.

LADTECH LEADS THE FUTURE.

HDPE Recycled Plastic Manhole Adjusting Rings
Engineered • Tested • Proven • Lightweight • Durable

Why Engineers Choose Ladtech:

- **Lightweight and Safe:** Under 15lbs, so heavy equipment is not needed for installation
- **Fast Installation:** Easy to lift, transport, and set; boosts productivity and lowers costs
- **Durable and Non-Corrosive:** Resists sulfuric acid, moisture, UV, heat, and impact
- **Sealed System:** Mortarless design with ASTM C-990 butyl sealant prevents infiltration and inflow
- **Versatile:** Multiple diameters and heights; easily adjusts to grade and slope
- **Sustainable:** Each ring uses approximately 50 recycled milk jugs and detergent bottles to make a single 27" ring to be handled by one person

LADTECH INC.

Proven Performance

Tested to exceed AASHTO HS-25 load specs and ASTM 4976 standards. Already trusted in national and international infrastructure projects.

Cost-Effective

Lightweight rings cut labor, equipment, and life-cycle costs — saving cities, counties, and contractors money while improving reliability.

Ladtech Guarantee

30-year replacement warranty. If a defect occurs within 5 years, Ladtech® will remove and replace it at no cost.*
